# An **inside**look ... our Grade Seven students.

Emmett Boyer

My favourite memory from ACS was when we went to the campout and Lincoln, Bentley and I fought in our cabin and Mr. V caught us. Next year, I plan to go to Unity and make at least two sports teams. My favourite subject is P.E. because I'm good at it and there is no homework. My advice for future students would be to keep your head up if you don't do your homework, because Mr. V is very forgiving.

Kezaira Glasmann

Next year, I'm going to Unity. I'm a bit scared by it, but I know I'll have friends there. I'm really looking forward to joining the Drama Club. My advice for future students is, don't give up. Even when you've got loads of homework and Track & Field practice and walking home and you're tired from the day, remember that God doesn't go away when things are tough. Just pray and He'll be there to help you.

Gia Hatch

My biggest achievement this year is that I have learned to get very good with clay. I have created a clay deer, mouse and earrings. I got better with Canva as well, which was very fun. I got better at being a goalie, and better at Math tests and getting less stressed. My favourite subject is Social Studies because we make slide shows and work in Canva, which is one of my favourite things to do in school. I love designing things.

Bentley Klop

My favourite memory from ACS is the campout I went to for two years with my class, and got to have a wrestling match with Emmett and Lincoln for fun. My plan for next year is to homeschool through Heritage Christian. I will still get to see Emmett in Lytton and hang out with him. My favourite subject was P.E. because it is a hands-on activity. I really enjoyed it a lot.

Elizabeth McNeil

My favourite subjects are Math and Science because there is Math almost everywhere and if you want to get a job then you would need to know different math things for different jobs. For Science, it is my favourite subject because you get to figure out what different things do when they react to one another, or do they react at all? My advice for future students would be to just have fun, don't let anything or anyone get in the way of your goal.

# An **inside**look ... our Grade Seven students.

Aria Notenbomer

My favourite memory from ACS is from the campout. We had a Grade 7 fire and were telling stories about animal encounters. When we had to go to bed, we 'Ding Dong Ditched' the Grade 6's.

My biggest achievement this year was jumping 1.32 meters in high jump.

My advice for future students is to always try hard when doing and presenting your projects because, if you actually try, you will start to like doing them.

Stella Saché

My biggest achievement this year is my Taylor Swift house that I built for my Genius Hour project. I spent many hours on it and I looked at all the little details.

My favourite subject is Math because I love learning new things and it makes sense.

My advice for future students is, friends will be there for a reason in your life and it might take you awhile to see the reason. If your friends start to drift away, do not be discouraged because it will be fine.

Maeve te Velde

My plan for next year is to go to Unity , I plan to make lots of friends and try my best in everything I do.

My biggest achievement this year is learning to be really confident in myself. I have done way more things than I thought I would ever have been able to do.

My advice for future students is, listen to what people say and remember it, because it will be important later on in life or in the school year.

Tara VanLaar

My biggest achievements this year were getting into all the team sports I tried out for, and managing to break two bones in one school year.

My favourite subject is L.A., because writing is so much fun. I love writing poetry and stories, and exploring my imagination through writing.

The thing I will miss the most about ACS is the community, and how you know everyone as if we've known each other forever.

Summer Wouda

My favourite subject is definitely P.E. because I find our class is always trying out different games and it is always so much fun.

My biggest achievement this year is doing all the sports and being able to be a leader in those sports.

My advice for future students is, always work hard in every subject even if it looks hard, because it is never really that bad.

# An **inside**look into ... what's happening.

## Thank You to our Volunteers!

Our school board puts in many unseen hours, working behind the scenes to make sure that our school functions well now and will continue to offer a Christ-centered education well into the future. Thank you Tanya Pranger, Adam Bergsma, Eric Swift, Kelsey Clark, Rachel Harrison, Colin Verschuur and Brandon Hoogendoorn for serving on the board this year.

We say farewell to Tanya, whose term on the board is ending, and welcome a new board member - Tyler Post. We also thank Eric Swift for accepting the position of Board Chair.

Thank you to our PAC, who have also worked diligently to support our students. They have organized hot lunches and fundraisers, and hosted all-school events. Their tasks seemed to be endless, but the smiles from the people they served tell of a job well done. Thank you PAC for all you do!

Thank you to the Development Committee for all their hard work and planning that went into our C.A.R.E. Campaign and Celebration!

Thank you to all the parents and grandparents who supported our students on field trips and the classroom!

## Next Year's Staff

Position	Staffing
